

One landscape. Many choices.

Print pages 2-9 at 100% / Actual size. Do not use Fit to page.

Give each person or small group one of the eight landscape pages to draw on before showing this overview. Ask them to choose a purpose for their land and add two features. Keep existing habitat, create gardens, provide housing, farm, or build a business. Drawing or directing a helper both count.

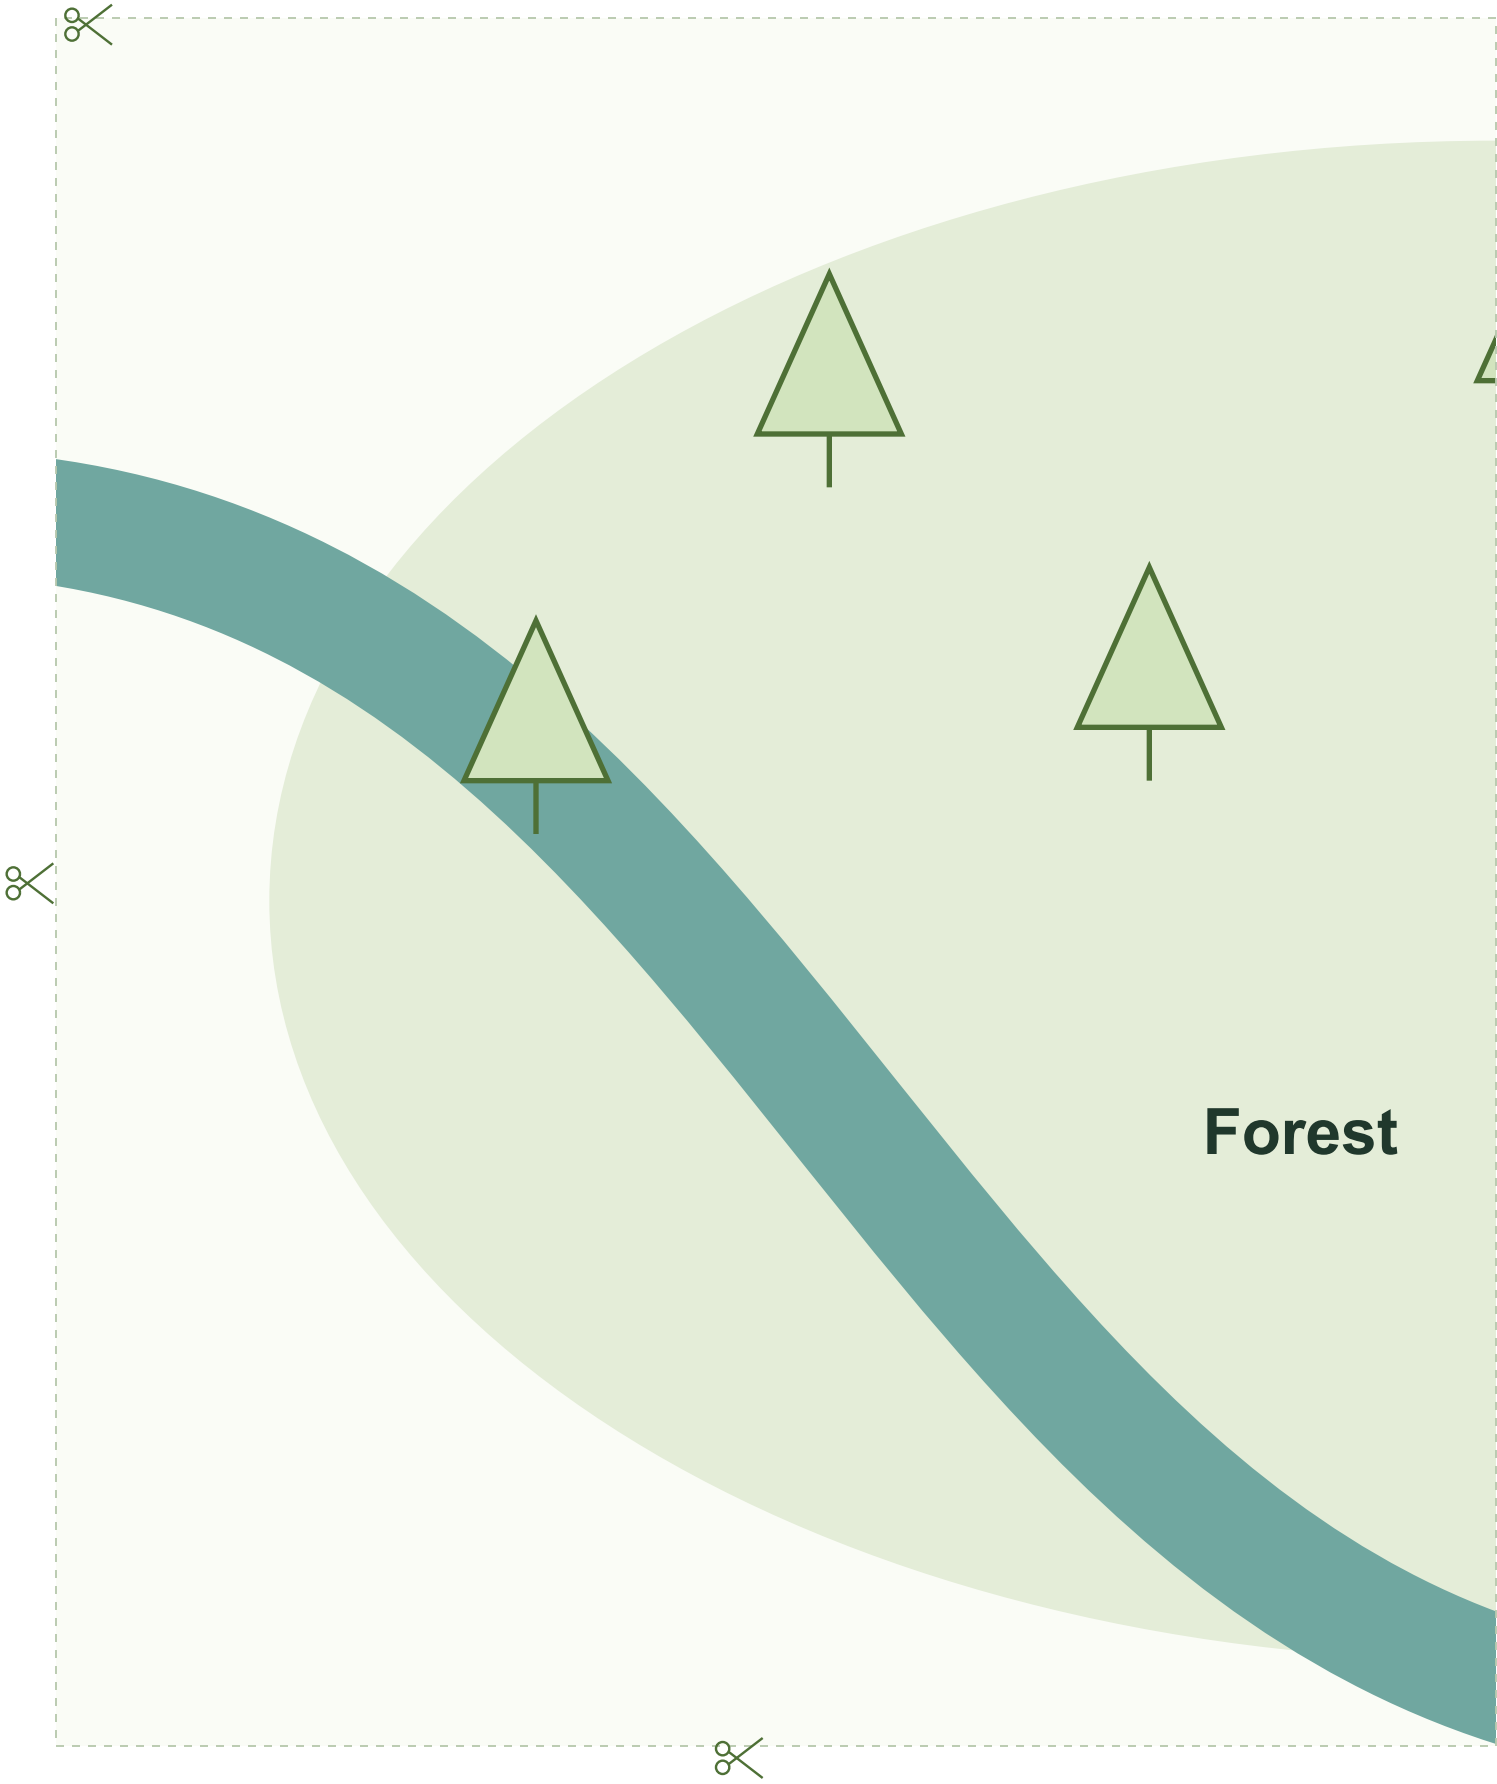

Top row: 1 - 2 - 3 - 4 | Bottom row: 5 - 6 - 7 - 8

Cut each tile on its dotted border, then join the numbered rows. Trace water, roads, and habitat across boundaries. Ask each person to revise one choice after seeing the whole map. How can we meet needs for homes, food, work, recreation, and habitat together?

The purpose: Our decisions about land have effects beyond our own space. This is an imaginary landscape, not a map of a real community.

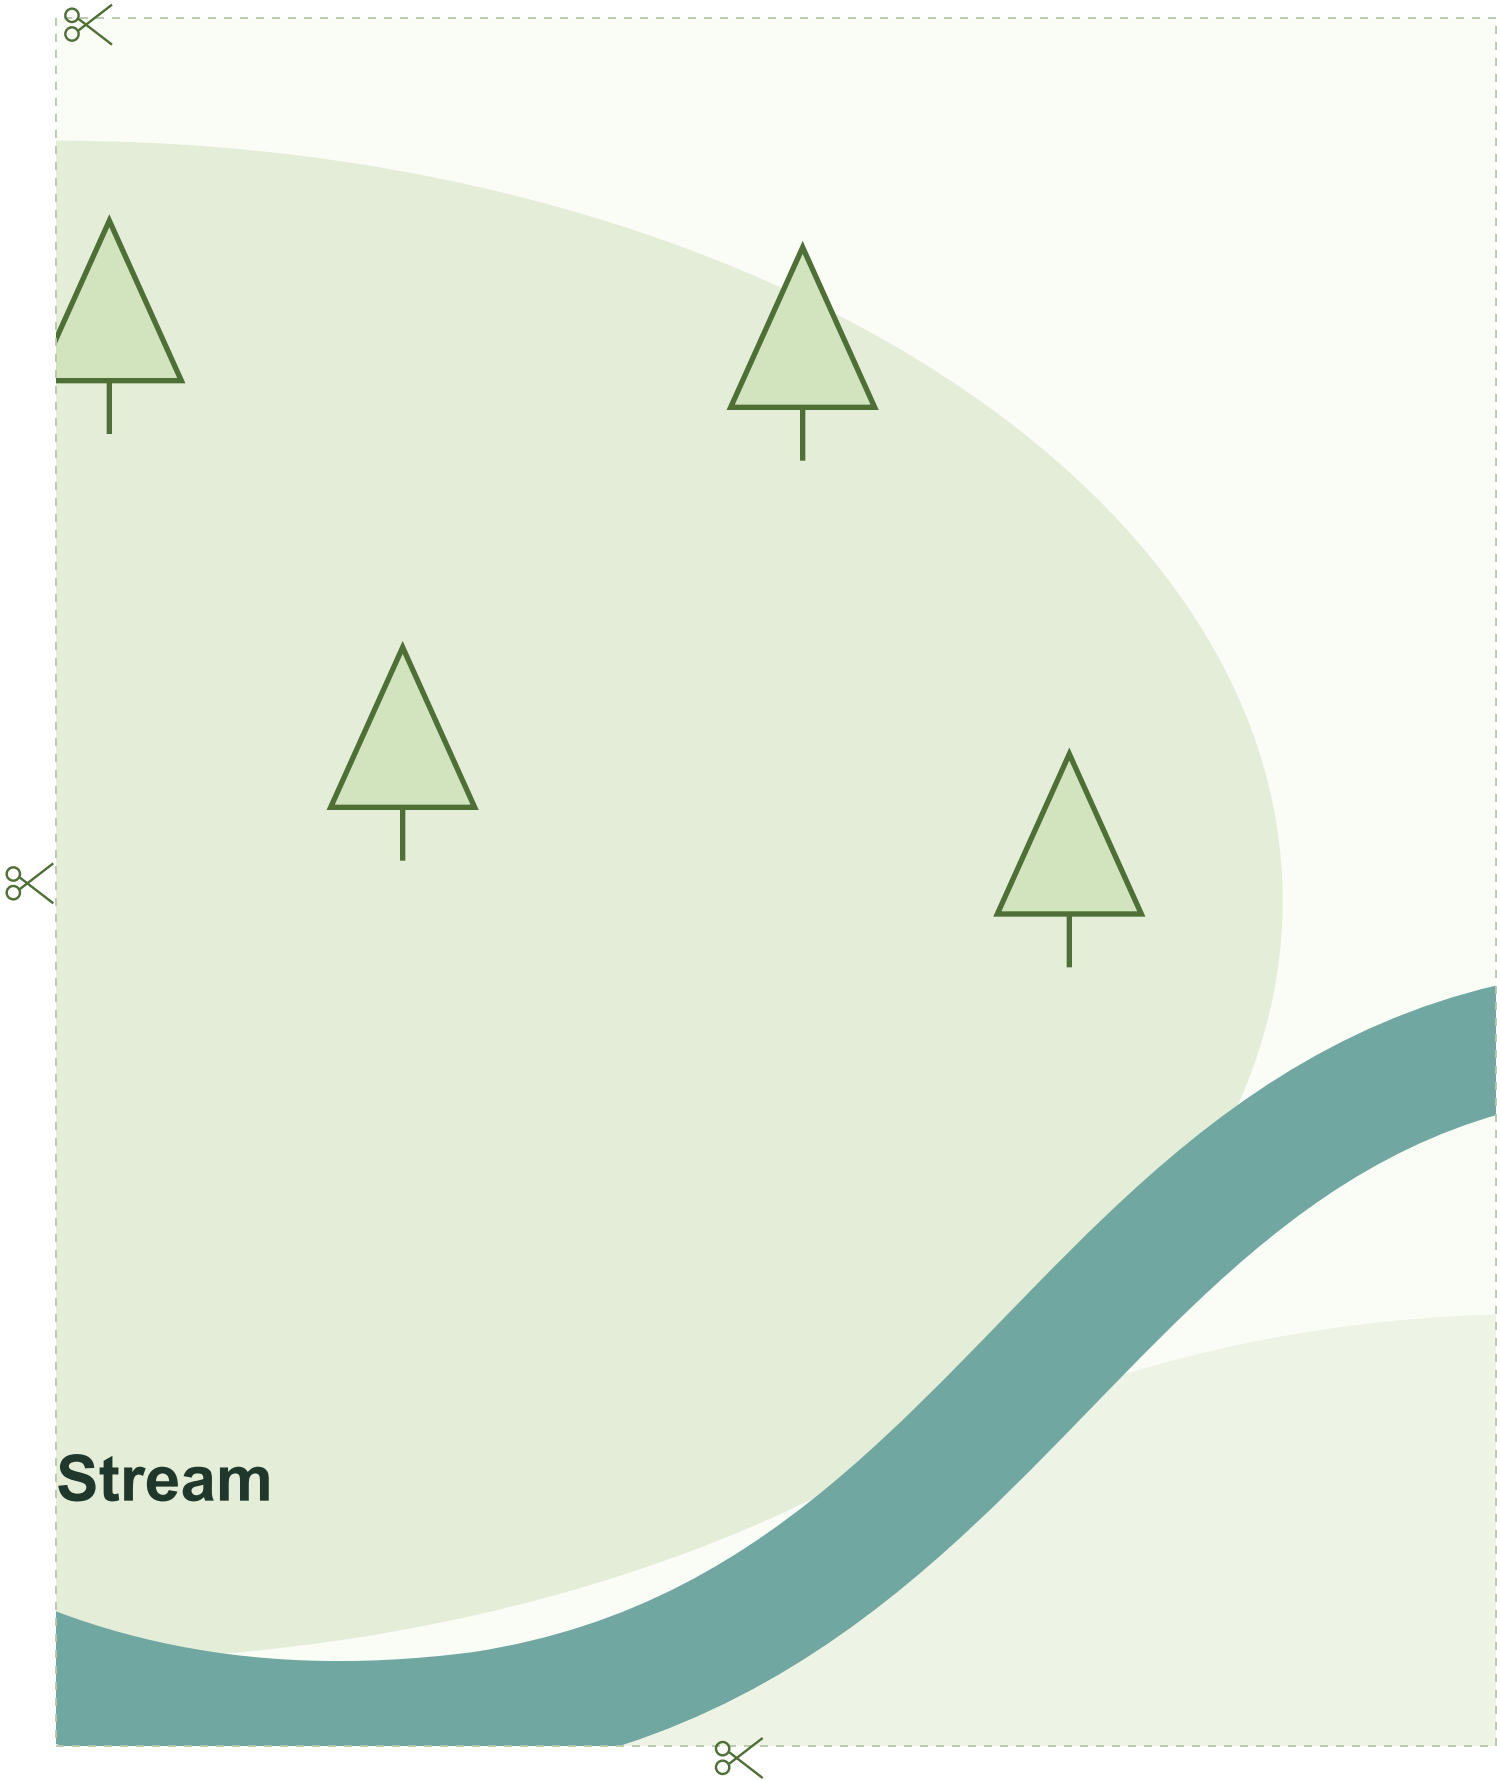

TILE 1 | Developing the Land

Draw your choices. Cut on the dotted border; join tiles after everyone finishes.

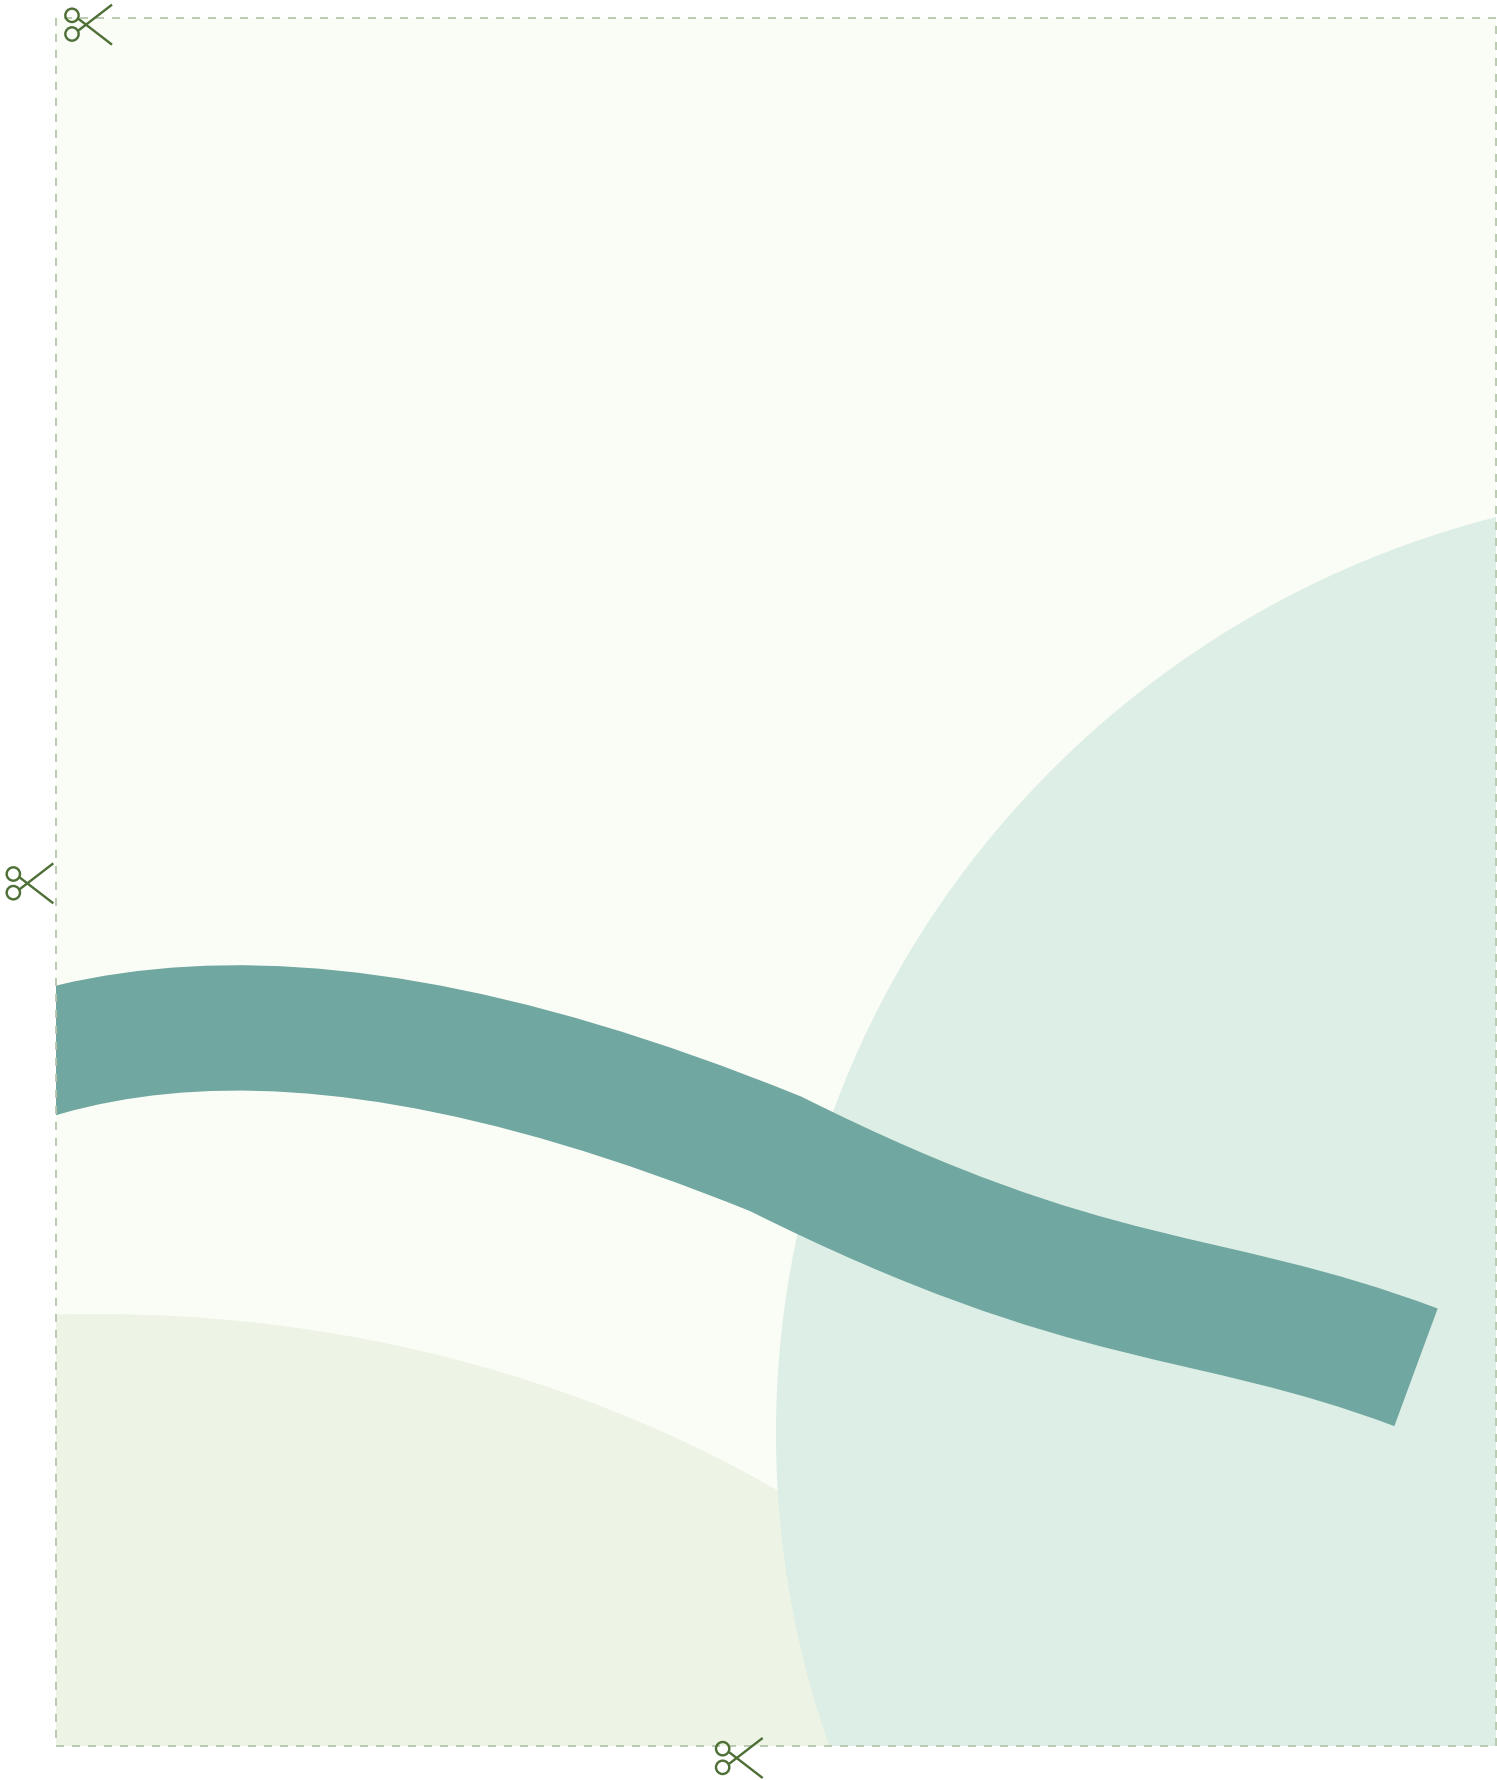

TILE 2 | Developing the Land

Draw your choices. Cut on the dotted border; join tiles after everyone finishes.

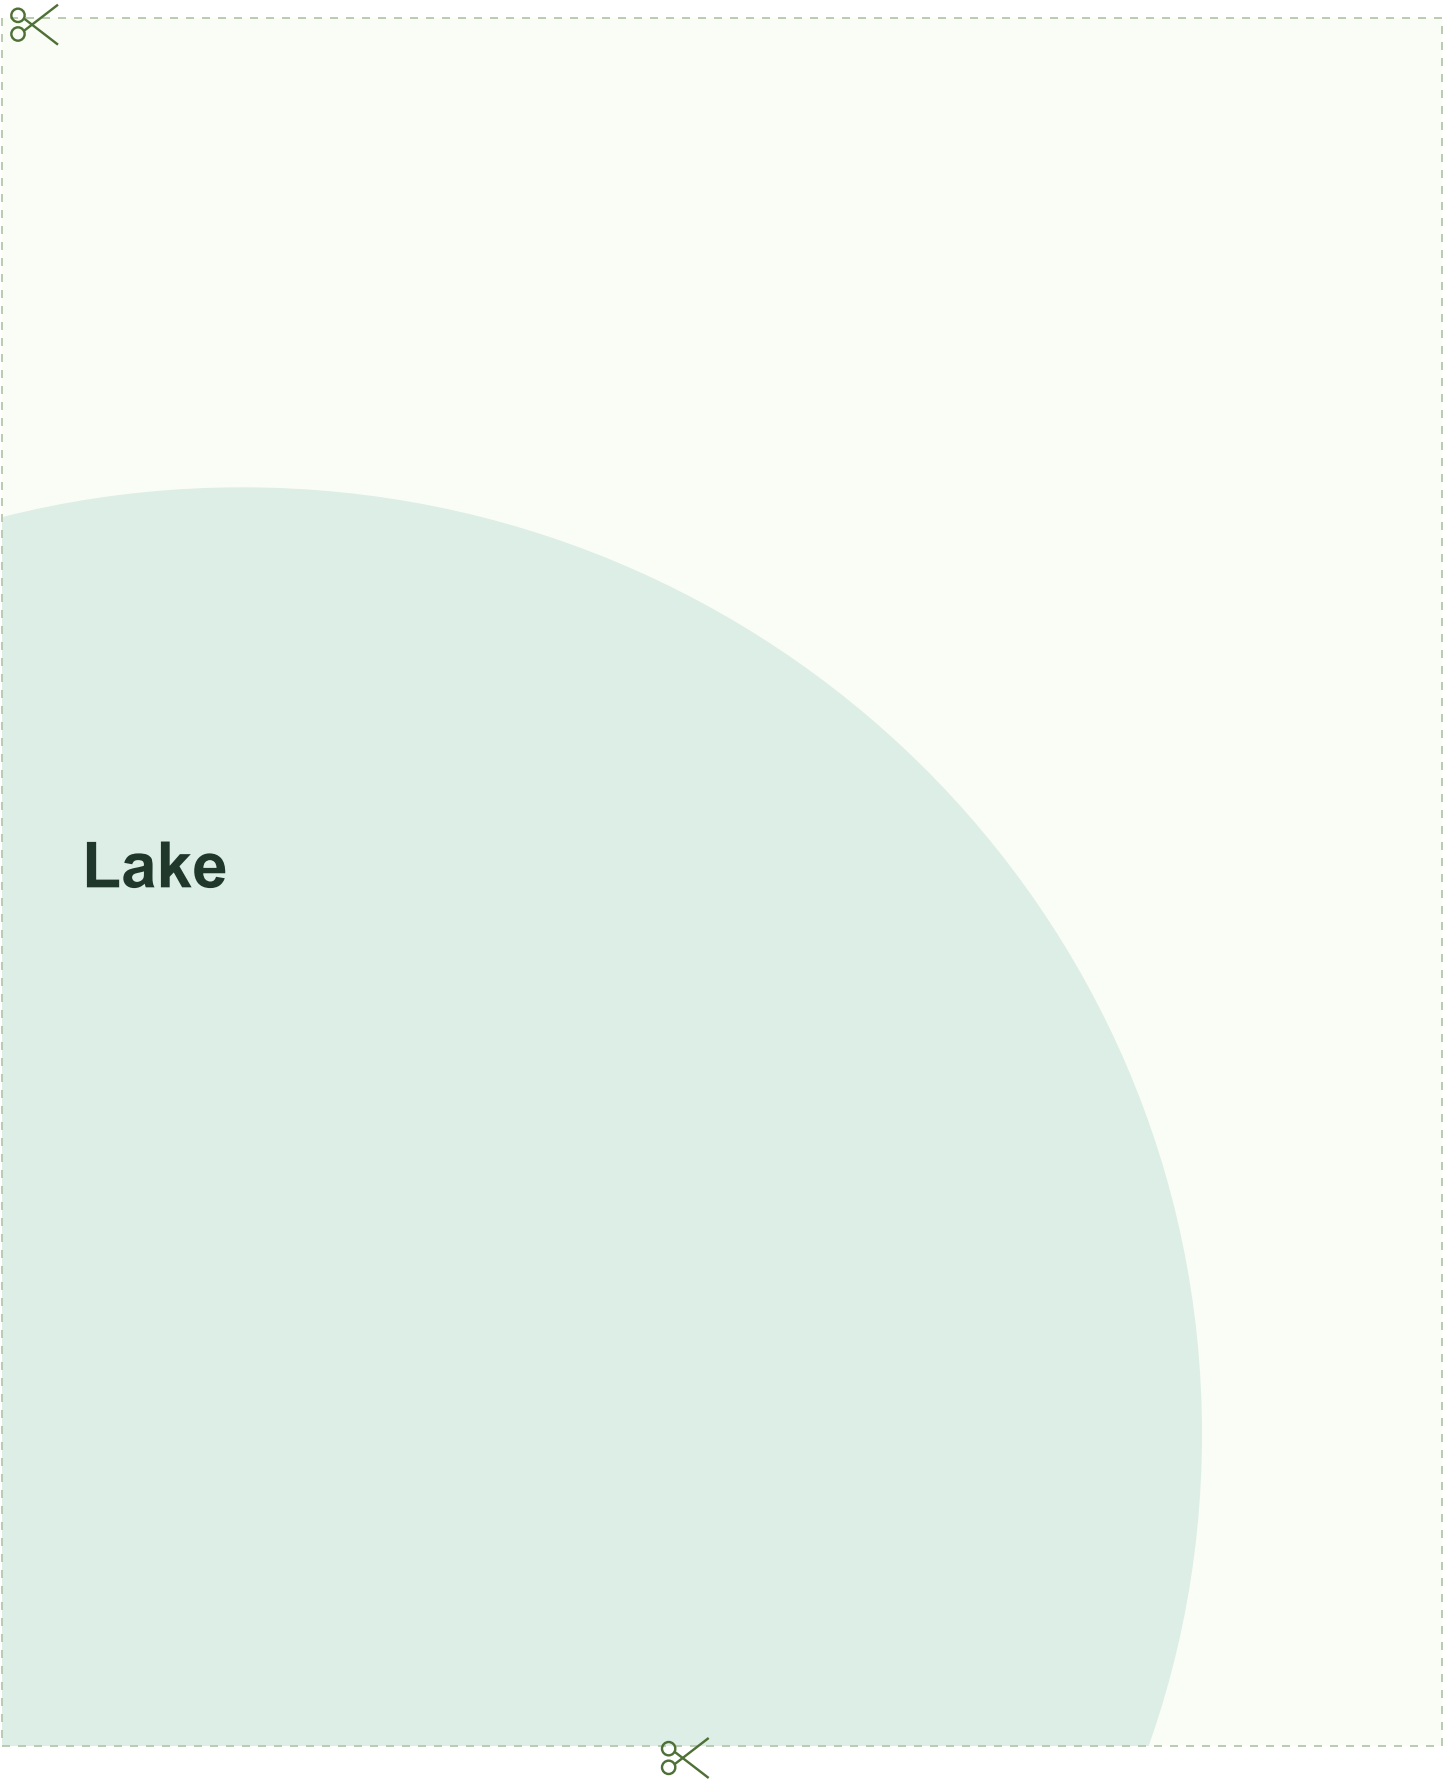

TILE 3 | Developing the Land

Draw your choices. Cut on the dotted border; join tiles after everyone finishes.

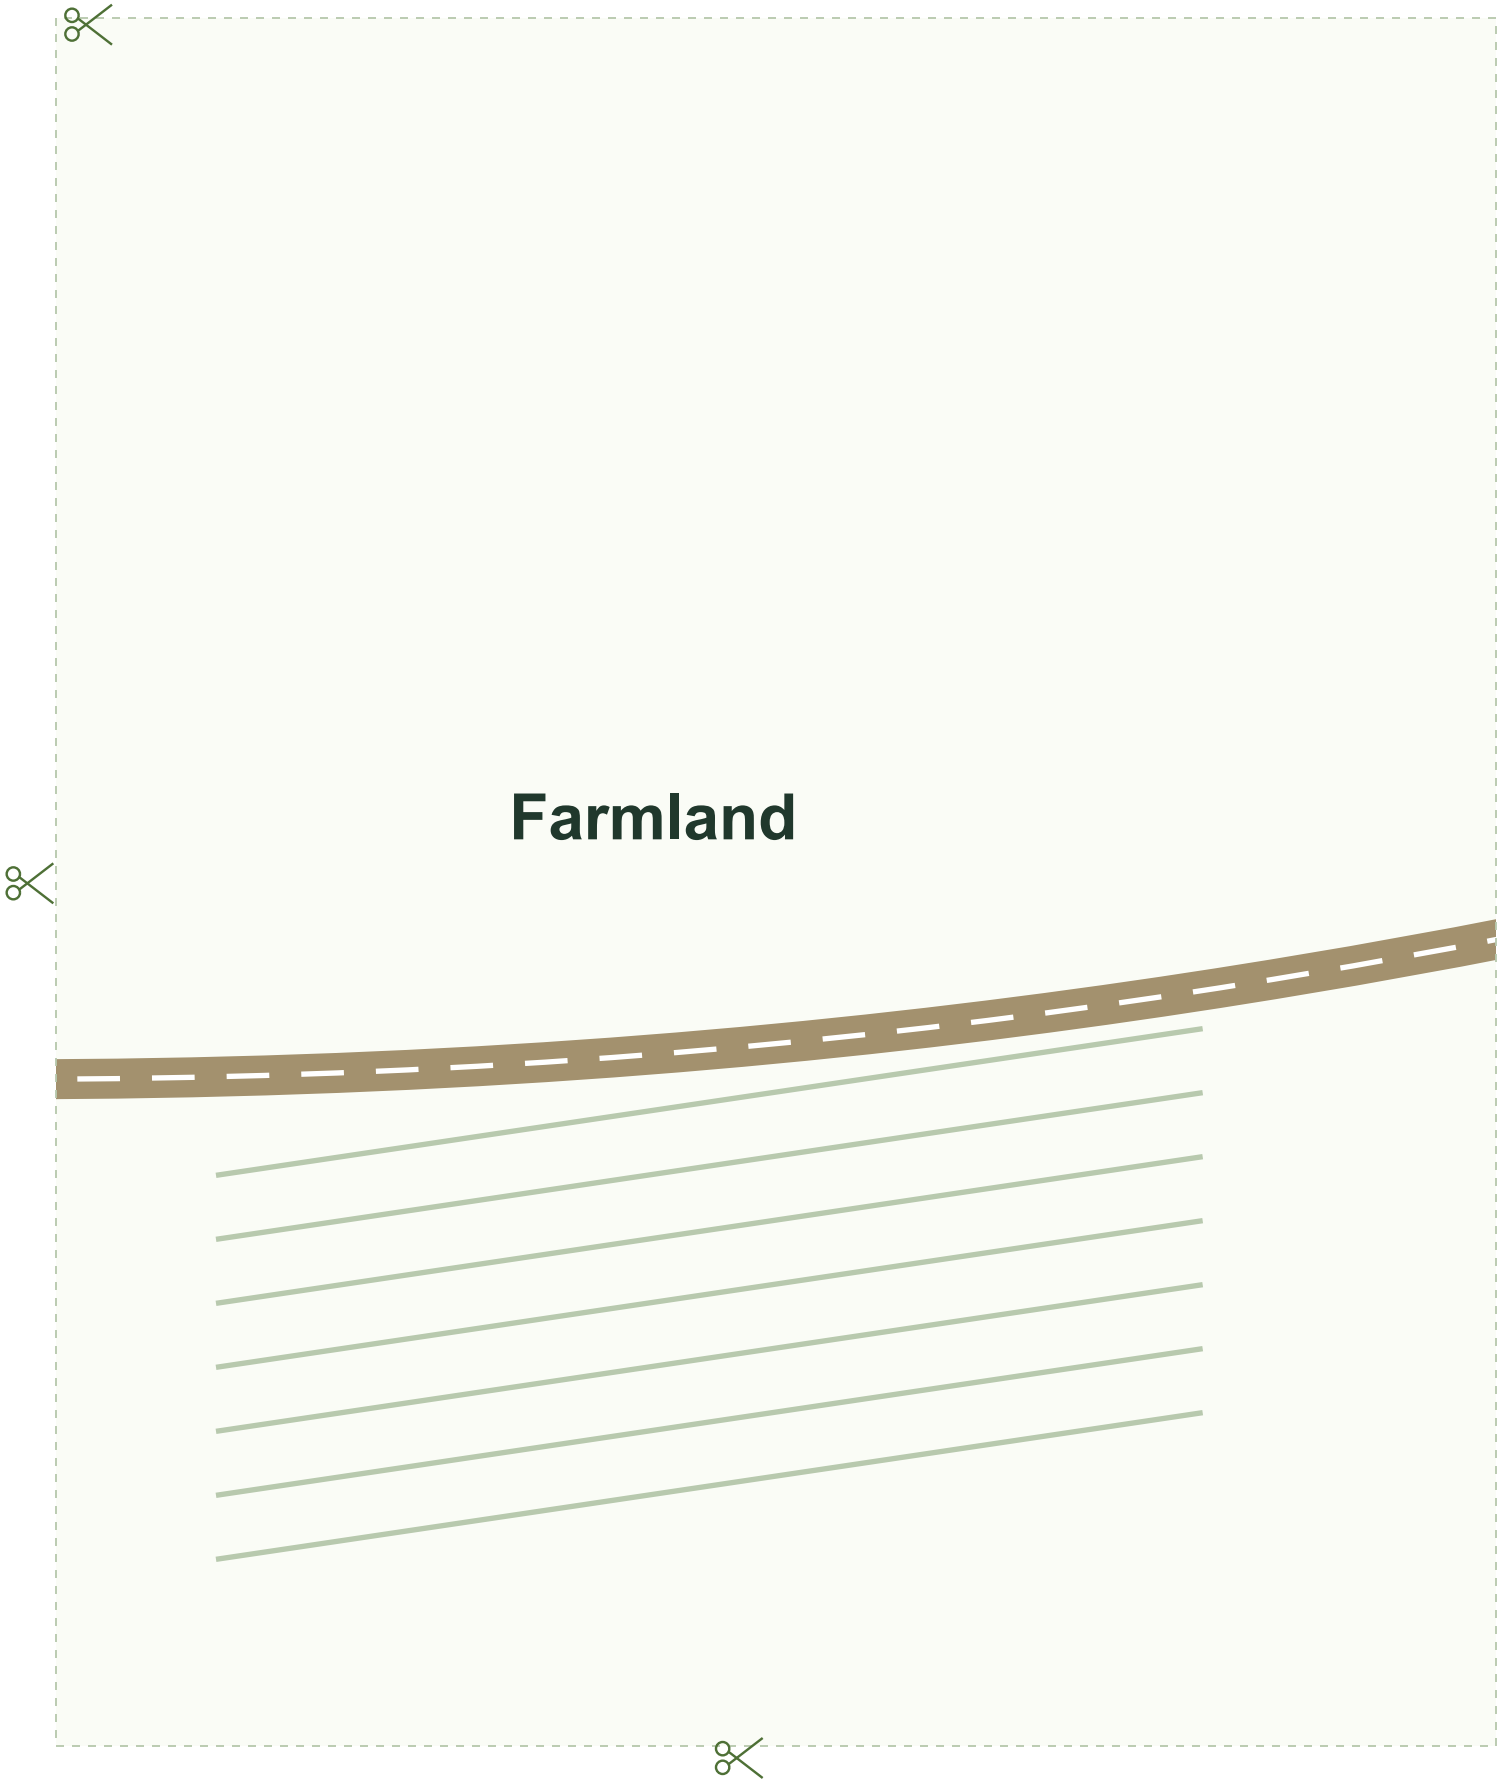

TILE 4 | Developing the Land

Draw your choices. Cut on the dotted border; join tiles after everyone finishes.

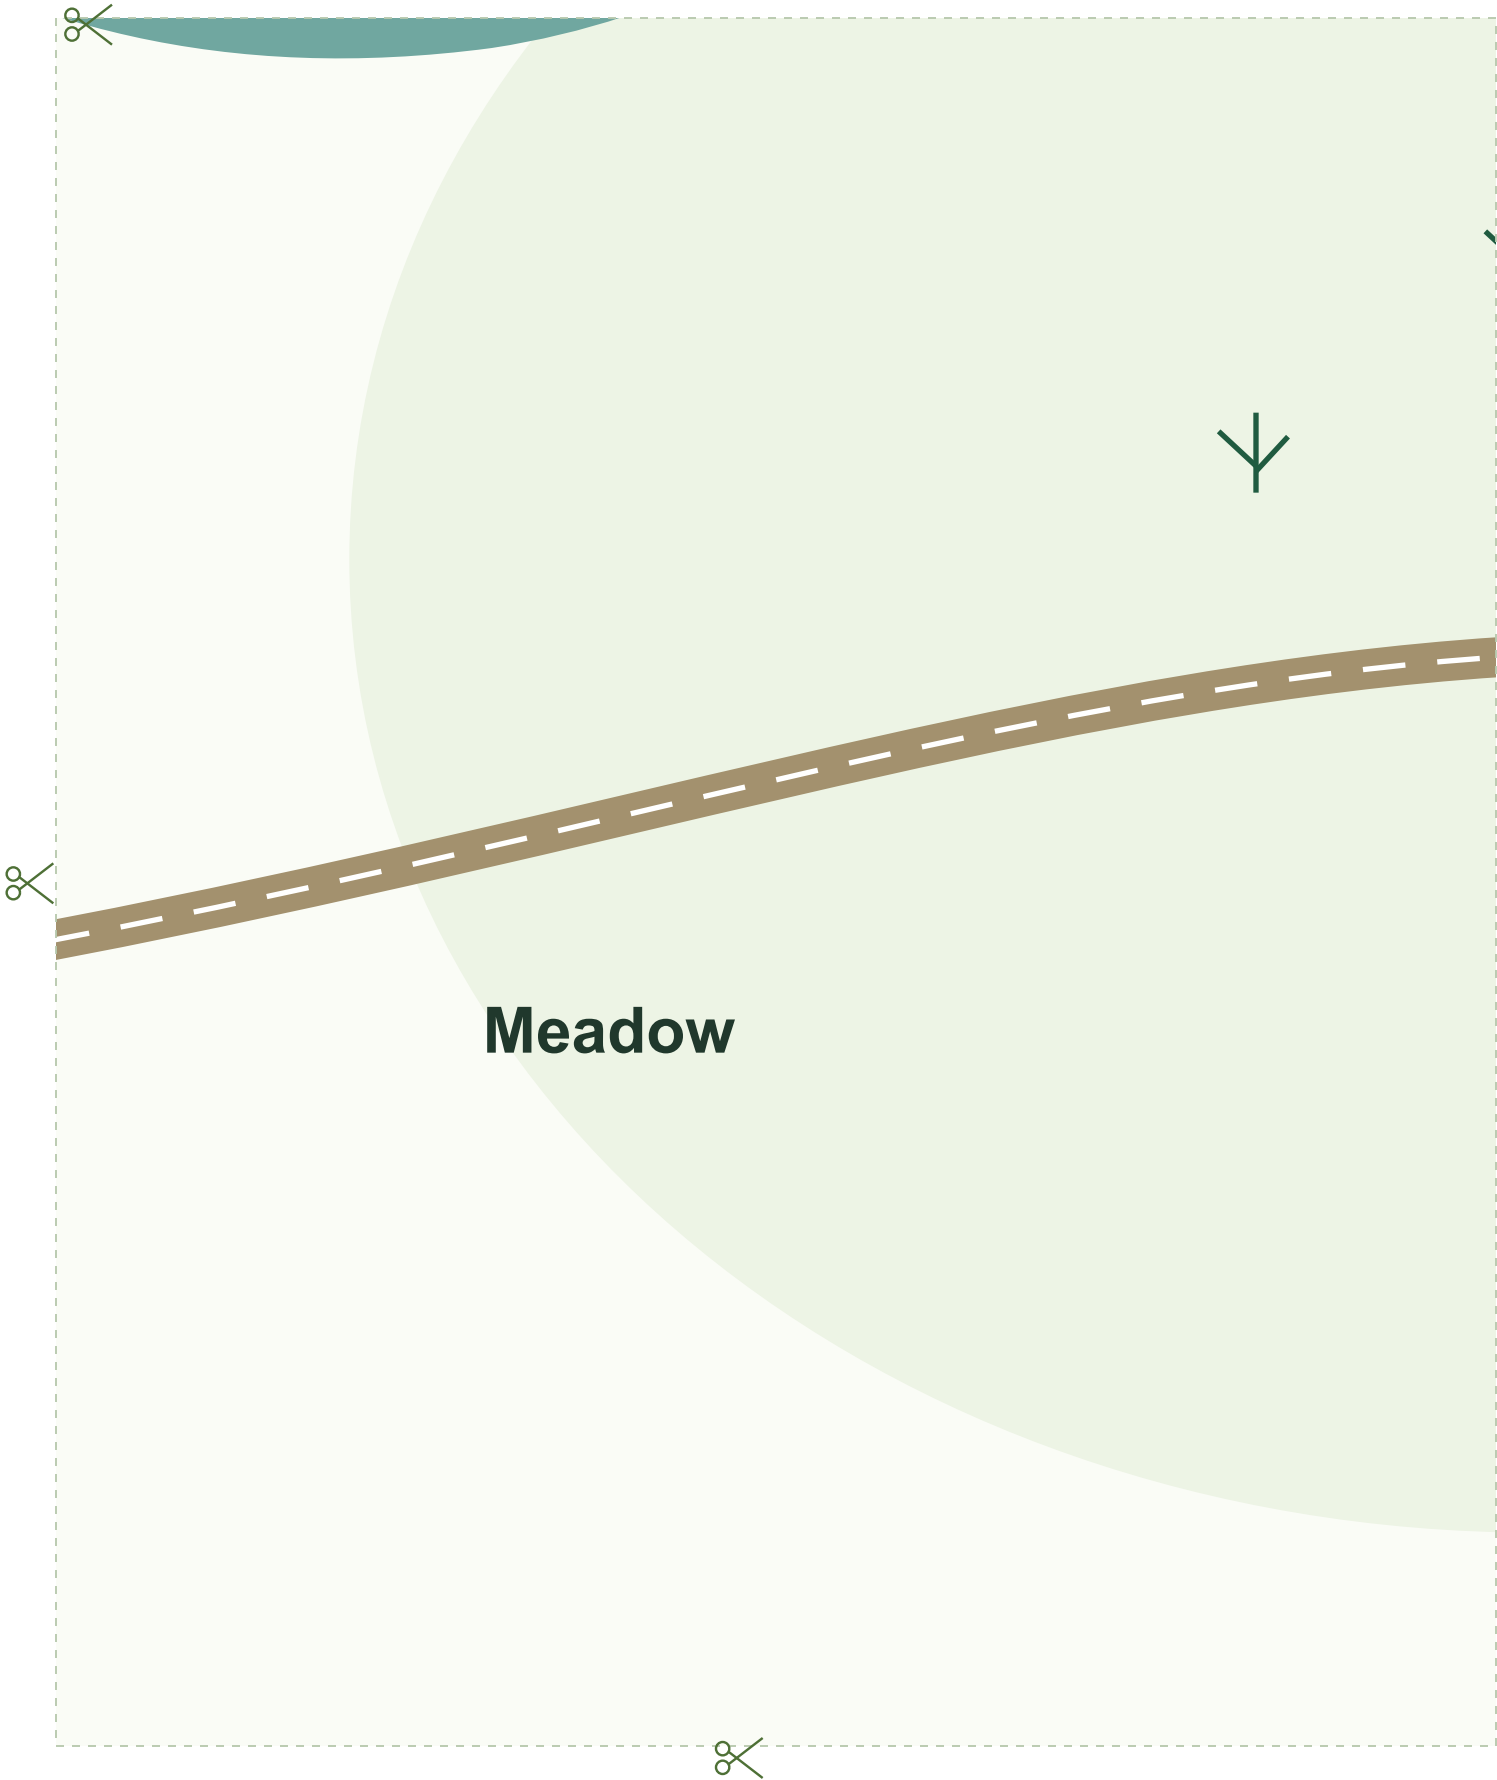

TILE 5 | Developing the Land

Draw your choices. Cut on the dotted border; join tiles after everyone finishes.

TILE 6 | Developing the Land

Draw your choices. Cut on the dotted border; join tiles after everyone finishes.

TILE 7 | Developing the Land

Draw your choices. Cut on the dotted border; join tiles after everyone finishes.

TILE 8 | Developing the Land

Draw your choices. Cut on the dotted border; join tiles after everyone finishes.
